

Sunday 23 June 2019

	Poster Area	Convention A1	World Ballroom AB	Lotus 1-4	Lotus 5-7	World Ballroom C	
08:00-08:30	Set up	Talking Shop: Developing new treatments for pediatric epilepsies and seizures from bench to the clinic	Teaching Session: Focal cortical dysplasia: an update	Teaching Session: Counselling patients with epilepsy, caregivers and relatives	Teaching Course: EEG source imaging – part one: theory	Talking Shop: The International Epilepsy Curriculum - Collaborative input by the Psychiatry Commission and Psychology Task Force	
08:30-09:00							
09:00-09:30		Posters	Presidential Symposium				
09:30-10:00							
10:30-10:30							
10:30-11:00							
11:00-11:30	<i>Break</i>						
11:30-12:00	Parallel Session: Autoimmune epilepsies - mechanisms, clinical spectra and treatment		Parallel Session: Neurobiology Symposium	Parallel Session: Small patients - big challenges: neonatal seizures	Parallel Session: Key neuropsychiatric issues in epilepsy and neurological clinical setting	Parallel Session: Making an impact by empowering persons with epilepsy	
12:00-12:30							
12:30-13:00	<i>Lunch, Posters</i>			Satellite Symposium	Satellite Symposium	<i>Lunch, Posters</i>	
13:00-13:30							
13:30-14:00				Award Symposium: 'Epilepsia' Prize - Basic Science			
14:00-14:30							
14:30-15:00	Platform Session: Paediatrics 1	Platform Session: Comorbidities	Platform Session: Neurophysiology	Platform Session: Psychosocial issues 1	Platform Session: Genetics 1		
15:00-15:30							
15:30-16:00							
16:00-16:30							
16:30-17:00							
17:00-17:30	Take down	Talking Shop: Individualized medicine for persons with epilepsy and intellectual disability – are we already there?	Ask the Expert: Women issues	Debate: Should laser interstitial thermal ablation be the treatment of first choice for patients with mesial temporal sclerosis?	Debate: Can we rely upon fMRI to localize language and memory when planning epilepsy surgery?	Talking Shop: Advocacy for epilepsy policies and programs	
17:30-18:00							
18:00-18:30							

Monday 24 June 2019

	Poster Area	Convention A1	World Ballroom AB	Lotus 1-4	Lotus 5-7	World Ballroom C	Lotus 10	
08:00-08:30	Set up	Talking Shop: A double-edged sword: can both over- and underactivation of NMDA-receptors cause seizures and epilepsy?	Teaching Course: EEG source imaging – part two: hands-on	Teaching Session: Autoimmune epilepsy – clinical diagnosis and treatment: a practical approach	Teaching Session: Video-session: is this epilepsy or not?	Talking Shop: ILAE North America - Gaps and opportunities for collaboration (education, care, research, global health) in the region		
08:30-09:00								
09:00-09:30		Posters	Main Session: Infection, inflammation and epilepsy		Main Session: Challenges and solutions in providing epilepsy care			
09:30-10:00								
10:30-10:30	<i>Break</i>							
10:30-11:00	Parallel Session: Update on the management of status epilepticus		Parallel Session: Update on treatments of childhood epilepsies	Parallel Session: Pros and cons of AED withdrawal	Parallel Session: Imaging epileptogenesis of epilepsy across the lifespan	Parallel Session: Epilepsy in adolescents	Special Session: WHO Global Epilepsy Report	
11:00-11:30	<i>Lunch, Posters</i>		Satellite Symposium	<i>Lunch, Posters</i>				
11:30-12:00								
12:00-12:30			Award Symposium: 'Epilepsia' Prize - Clinical					
12:30-13:00	Platform Session: Treatment				Platform Session: Adult epileptology	Platform Session: Status epilepticus	Platform Session: Surgery	Platform Session: Neuroimaging
13:00-13:30								
13:30-14:00	Take down		Debate: Should we recommend medical marijuana for treatment of uncontrolled focal seizures?	Debate: Can epileptic and psychogenic seizures be more reliably diagnosed in the era of the smartphone?	Talking Shop: Ten things every neurologist needs to know about neuropsychological assessment in epilepsy	Ask the Experts: Treat this	Talking Shop: West Syndrome: Update of diagnoses, etiologies and managements	
14:00-14:30								
14:30-15:00								
15:00-15:30								
15:30-16:00								
16:00-16:30								
16:30-17:00								
17:00-17:30								
17:30-18:00								
18:00-18:30								

Tuesday 25 June 2019

	Poster Area	Convention A1	World Ballroom AB	Lotus 1-4	Lotus 5-7	World Ballroom C	
08:00-08:30	Set up	Talking Shop: Optimizing therapy for Dravet Syndrome: so many choices but what should I pick?	Teaching Session: Epileptic encephalopathies	Teaching Session: VIREPA courses: EEG (basic and advanced)	Teaching Session: Video-session: focal seizures:	Talking Shop: Treatment and research gap for children with epilepsy in low and middle income countries	
08:30-09:00							
09:00-09:30		Posters	Main Session: Novel therapies in epilepsy: a brave new world	Main Session: Improving outcomes in drug resistant epilepsy: what more can we do?			
09:30-10:00							
10:30-10:30	Break						
10:30-11:00	Parallel Session: Epilepsy surgery: the cutting edge and level of evidence		Parallel Session: Moving beyond the medical management of epilepsy	Talking Shop: ILAE-YES Career Development Session: Career paths in epilepsy - all roads lead to Rome?	Parallel Session: Neuropsychology: implications for epilepsy surgery	Parallel Session: Epilepsy in the elderly	
11:00-11:30							
11:30-12:00	Break						
12:00-12:30	Lunch, Posters		Satellite Symposium	Satellite Symposium	Lunch, Posters		
12:30-13:00			Award Symposium: 'Epilepsia Open' Prize - Basic	Award Symposium: 'Epilepsia Open' Prize - Clinical			
13:00-13:30							
13:30-14:00							
14:00-14:30							
14:30-15:00							
15:00-15:30							
15:30-16:00	Platform Session: Paediatrics 2		Platform Session: ILAE-YES Best Abstracts		Platform Session: Neurophysiology / Basic sciences		
16:00-16:30			Platform Session: Psychosocial issues 2		Platform Session: Genetics 2		
16:30-17:00	Break						
17:00-17:30	Take down	Debate: Is it advisable to taper medication in well-controlled patients with symptomatic adult-onset focal epilepsy?	Ask the Experts: Diagnose/classify this		Debate: Do the new classifications of seizures and epilepsy improve our ability to classify, diagnose, and treat epilepsy in the clinic?	Talking Shop: Generalised epilepsy genetics: distinct syndromes or murky margins?	
17:30-18:00							
18:00-18:30							

Wednesday 26 June 2019

	World Ballroom AB	Lotus 1-4	Lotus 5-7
08:00-08:30	Teaching Session: VIREPA courses: sleep and paediatric EEG	Teaching Course: Teaching course for neurophysiology technicians	Teaching Session: Video-session: generalized seizures
08:30-09:00			
09:00-09:30			
09:30-10:00		Main Session: Applied technology in the future of epilepsy	
10:30-10:30			
10:30-11:00			
11:00-11:30			
11:30-12:00
